## IMMEDIATE OPENING – CNC MILLING MACHINIST

Peerless Precision, Inc. (PPI), is a growing 20 person contract manufacturer and job shop in Westfield, MA and we are looking for skilled people to join our team! PPI is a 46 year old company which specializes in the manufacture of small, complex, critical, tight tolerance components for the Aerospace, Defense, Space, Medical Device and Commercial Industries.

We are looking for a CNC Milling Machinist with at least 5 years of experience in set-up, edit, and operation of CNC Vertical Mills (4 and 5 Axis). Experience with Mazatrol, Haas and/or Fanuc Controls is preferred. Experience with manual machining and CNC Lathes is a plus!

### Qualifications:

- Minimum 5 Years Experience in a Manufacturing setting
- High School Diploma or Equivalent
- Team Player
- Read and understand Blueprints, Travelers/Routers
- Understand GD&T
- Excellent communication and basic shop math skills
- Knowledge of proper use and interpretation of measuring tools and gages
- Knowledge of proper operation of CNC Control Panels
- Commitment to excellence and high standards
- Organizational and problem-solving skills
- Ability to manage priorities and workflow
- Versatility, flexibility and a willingness to work within constantly changing priorities
- Mechanical Aptitude
- Acute attention to detail
- Ability to understand and follow written and verbal instructions
- Ability to understand any and all safety requirements and cautions
- Ability to lift up to 50 lbs
- Self-Motivated and Positive Attitude
- Reliable Transportation
- Must be a U.S. Citizen

### Duties and Responsibilities:

- Utilizes various types of manual, numerically controlled and computer numerically controlled machine shop equipment (Mill and Lathe) to perform machining operations on materials including, but not limited to steel, aluminum, titanium, tungsten and plastics.
- Works from and in accordance with specifications and design criteria including, but not limited to verbal instructions, drawings and blueprints; performs standard shop computations relating to dimensions of work and tooling speeds and feeds of machines.
- Uses a wide variety of precision measuring instruments; maintains accurate dimensional tolerances based upon drawings.

- Operates a variety of machines, including but not limited to CNC Mills and CNC Lathes, to perform machining operations and ensure the proper utilization of equipment and material.
- Fabricates complicated parts having many interrelated, compound angles, and irregular surfaces.
- Improvises production aids as necessary to facilitate operations.
- Reworks and calibrates production parts or assemblies and machine tooling as required; check each component for accuracy as they come off the machine.
- Maintains thorough knowledge of industry, machinery, techniques and all applicable safety requirements and considerations.
- Provides all required reports and correspondence.
- Performs other related duties as assigned by supervisor.

Compensation and Benefits Package:

- We offer competitive wages based on Experience
- Guaranteed 40 hours per week with ample opportunities for overtime (up to 50-60 hours per week)
- 9 Paid Holidays and Annual Holiday Shutdown (Christmas – New Years)
- Benefits include Medical, Dental, Vision, Life, Short Term and Long Term Disability Insurance; matching 401(K), Quarterly Profit Sharing, Paid Sick Time and 2 Weeks Paid Vacation after 90 days.

If you are a team player who enjoys a challenge and wants to grow with us, is motivated and appreciate an environment where your experience, expertise and contributions are valued, please email your resume and salary requirements to [info@peerlessprecision.com](mailto:info@peerlessprecision.com)
